## **STATEMENT**

*I devoted most of my scientific career trying to recreate the energy of the stars – essentially trying to tame nature by creating order out of chaos. And now, I also do it with my art – with the energy and untamed chaos I use in many strokes of the brush, seeking and eventually searching for order.*

## **BACKGROUND**

Resident artist, Bothwell Arts Center, Livermore, California (2018)

Retired physicist and scientist with over 40 years of experience in nuclear fusion research at Princeton Plasma Physics and Lawrence Livermore National Laboratories

Visiting Scientist, Lawrence Livermore National Laboratory, 2023-present

Science Advisor, Stanford Linear Accelerator Laboratory, 2023-present

## **EDUCATION**

Post-Baccalaureate Certificate in Visual Arts (Painting), UC Berkeley Extension, (2018)

Certificate in Specialized Program in Drawing, UC Berkeley Extension (2016)

MS, Computer Science, Drexel University (1992)
